## Payoneer's Global Offices

## Message from Scott Galit, CEO

*At Payoneer, our goal is to empower our customers to go beyond – beyond borders, beyond limits and beyond payments. We very much believe that by connecting countries, currencies, businesses and professionals that we can help our customers succeed in more ways and more places than ever before. And we have a global team of smart, caring people who wake up every day and love what they get to do – working together to help our global customers succeed.*

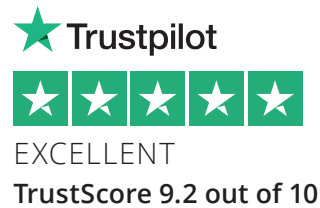

*We see every day how technology and the internet are creating exciting new business opportunities all over the world. We see millions of entrepreneurs from over 200 countries and territories – professionals, small businesses and digital platforms – actively building global businesses in this new world of opportunity. And every day we see the challenges these businesses face in getting paid and making payments for cross-border trade. It's rare as a CEO that you get a chance to work on something so exciting, important and inspiring.*

*We see how the world is shrinking around us and becoming a place where resourcefulness, talent and hard work matter more than where you come from. By connecting entrepreneurs large and small to the rest of the world, Payoneer ensures nothing will ever stand in the way of their hard-earned success.*

*We are inspired by the global entrepreneurs that we have the privilege to work with every day. And we are excited to play our part in helping them drive growth in their local economies and change our world.*

## Transforming the way SMBs manage cross-border payments

Payoneer's online account empowers businesses, online sellers and freelancers to pay and get paid globally as easily as they do locally. The account offers everything you need to get paid by marketplaces, platforms and your international clients and suppliers. What's more, you can choose how to use your funds converting it into your local currency at low rates or paying your suppliers, VAT and more. With working capital also available, Payoneer is truly your passport to global expansion.

**Jinwon Jang, CEO of Gtory, Korea**

*With Payoneer, with only a few clicks I can receive my funds to my Korean bank account. This led to a big change with 90% of unnecessary processes now reduced.*

**Allan Donato, Co-founder of EASE Technology Solutions, Philippines**

*Thanks to Payonner, I accelarated the growth of our company and the average monthly revenue increased by over 500% over the past few years.*
